Primary Vessel / Container:	MV Baltic Star (Voyage 184E) / Container MSCU-849201-4

1. Receiving Summary & Customs Clearance Status

Container MSCU-849201-4 was discharged at the terminal and transferred to the Central Distribution Staging Facility on November 4, 2026. Customs duties and port handling charges have been settled in full. Quality Control (QC) inspectors conducted a 100% carton-by-carton physical tally prior to releasing inventory into the warehouse allocation system.

2. Container Line-Item Tally & Catalog SKU Linkage

- SKU Code: VL-POLO-BLK | Catalog Product Name in products.csv: "Classic Short-Sleeve Polo" (listed in backorders_dataset.csv as "Classic Short-Sleeve Polo (Black)") | Manifested Qty: 60 units | QC Rejected Qty: 20 units | Net Passed Qty (Available from Port): 40 units | Disposition: Released for immediate backorder allocation & products.csv storefront stock reconciliation.
- SKU Code: VL-SHIRT-PMB | Catalog Product Name in products.csv: "Palm Breeze Shirt" | Manifested Qty: 15 units | QC Rejected Qty: 0 units | Net Passed Qty: 15 units | Disposition: Previously allocated & fulfilled (BO-2003, BO-2007, BO-2010; 0 open Pending backorders).

3. Short-Shipment & Damage Discrepancy Alert (SKU: VL-POLO-BLK / Classic Short-Sleeve Polo)

Although 60 units of SKU VL-POLO-BLK (Classic Short-Sleeve Polo) were billed on the commercial invoice to cover all 60 units of open Pending backorders, physical inspection revealed moisture ingress in Pallet Crate #3. Exactly 20 units failed QC inspection and were quarantined for marine insurance claim recovery. Consequently, only 40 newly arrived units of VL-POLO-BLK passed inspection from the port manifest.

4. Pending Backorder Demand vs. Storefront Stock Reconciliation (VL-POLO-BLK)

- Open Pending Backorders in backorders_dataset.csv (6 rows totaling 60 requested units):
  - Priority Tier (20 units total): BO-2001 (2026-10-10, Apex Apparel Group, Sarah Jenkins, 12 units) and BO-2004 (2026-10-14, Harborline Retail Partners, Marcus Vance, 8 units).
  - Standard Tier (40 units total): BO-2002 (2026-10-12, Nordic Thread Collective, Lukas Lindqvist, 10 units), BO-2006 (2026-10-16, Elmwood Boutique Supply, Hannah Abbott, 10 units), BO-2009 (2026-10-22, Meridian Urban Wear, Kenji Takahashi, 12 units), and BO-2013 (2026-10-28, Pacific Rim Clothiers, Daniel Kim, 8 units).

- Existing Public Storefront Stock in products.csv: "Classic Short-Sleeve Polo" (SKU: VL-POLO-BLK) currently holds 24 units in products.csv across its size JSON map {"M":4,"L":8,"XL":8,"XXL":4}. Combined Pool (Existing Storefront 24 units + Newly Arrived Port Manifest 40 units) = 64 total available units of VL-POLO-BLK.

5. Mandatory Instruction to Fulfillment Desk

- For backorder-only port allocation (when products.csv stock is NOT being reconciled): allocate the 40 net passed port manifest units across the 6 open Pending rows in backorders_dataset.csv per SOP-OPS-019 Section 3.
- For cross-catalog inventory reconciliation across BOTH backorders_dataset.csv AND products.csv: reconcile the 64 combined units (40 manifest + 24 storefront) against the 60 open backorder units and the 10-unit Minimum Storefront Buffer Rule on "Classic Short-Sleeve Polo" in products.csv strictly in accordance with SOP-OPS-019 Section 4.
