==========
VELOURA APPAREL & LIFESTYLE LTD.
INTERNAL MERCHANDISING & INVENTORY OPERATIONS DIRECTIVE
==========
Document ID: MEMO-MERCH-2026-Q4-09
Effective Date: November 6, 2026
From: Office of the VP of Merchandising & Inventory Planning
To: Digital Catalog Operations, Warehouse Fulfillment, CRM Team
Subject: Mandatory End-of-Season Catalog Markdown & Buyer Notification
Reference Files: products.csv (Apparel Master Catalog)
Customer Desk: velourabd.online@gmail.com | +880 01629743377
==========

1. EXECUTIVE BACKGROUND & WAREHOUSE TURNOVER CONTEXT
As Veloura transitions its regional fulfillment centers toward the upcoming Winter Jacquard and Heavy Knitwear arrivals, current rack utilization in Zone A and Zone B has reached 91.4% capacity. To clear seasonal shelf allocation prior to the next container intake, Merchandising is initiating an immediate automated price adjustment across designated warm-weather and premium statement lines.

2. VISUAL MERCHANDISING & PACKAGING CONTINUITY (GENERAL OPERATIONS)
All items dispatched under seasonal promotions must retain standard Veloura luxury packaging, including frosted garment bags, collar stays, and woven size tags. Standard customer service protocols remain in effect: for any post-purchase exchange or refund inquiry, customers must contact velourabd.online@gmail.com or 01629743377 with their order number and issue details, ensuring the garment remains unused, undamaged, and in its original packaging.

3. MANDATORY CATALOG DATABASE MUTATION RULES (ACTIONABLE DIRECTIVE)
Catalog Operations is instructed to execute an immediate update on the active products.csv database table according to the following strict filtering and mutation rules:

3.1 Eligible Product Categories:
This directive applies strictly to products classified under the following two category values in products.csv:
- "summer shirt" (including Palm Breeze Shirt, Floral Half Sleeve Shirt, and AirTex Printed Men's Shirt.)
- "luxury shirt" (including Men's new follower stylish long-sleeved shirts and Sparkle fusion Shirt)

3.2 Stock Volume Threshold:
Apply the markdown to all products in the eligible categories above where current inventory is in stock (specifically targeting items with stock > 10, or all active stocked rows within those two categories if aggregate stock exceeds clearance thresholds).

3.3 Required Discount Adjustment:
Increase the existing "discount" value of every qualifying row by an additional 20 percentage points (+20% added to the current discount value).

3.4 Excluded Core Staples:

Do NOT modify prices or discounts for rows categorized under "full shirt", "polo", or standard "shirt" (such as Granular Texture Turtleneck Shirt for Men., Crinkle Layer Shirt, PleatWave Shirt, Classic Short-Sleeve Polo, Ribbed V-Neck, OpenWeave Shirt, Wavy Textured Short Sleeve Shirt, or Versatile long-sleeved shirt for Men.).

4. MANDATORY CUSTOMER & WHOLESALE NOTIFICATION CAMPAIGN

Immediately upon committing the discount mutations to products.csv, the system must dispatch a targeted promotional announcement email to registered customers and wholesale buyers detailing the newly discounted items, their updated promotional discount percentages, and final net prices.
