CORPORATE COMPLIANCE & CUSTOMER PROTECTION POLICY

Service Level Agreement (SLA): Order Fulfillment & Delay Compensation

Policy Code: POL-SLA-48H-2026 **Target Window:** 48-Hour Fulfillment SLA **Status:** Active Standard

1. PURPOSE & SCOPE OF COMMITMENT

This Service Level Agreement governs fulfillment timelines and customer remediation policies for all verified orders processed across Meridian commercial sales channels. Under standard operational protocols, every confirmed commercial order enters priority handling to guarantee that warehouse picking, packaging, and handover to certified freight couriers occur within forty-eight (48) hours of transaction approval.

2. MANDATORY 10% VOUCHER POLICY FOR DELAYS EXCEEDING 48 HOURS

In the event that an order dispatch timeline exceeds forty-eight (48) hours from the moment of order confirmation—whether arising from warehouse processing constraints, supplier inventory deferrals, or logistics carrier backlogs—the affected consignment is instantly classified as SLA-Breached. To uphold our standard of accountability, the customer is automatically issued an electronic promotional store voucher valued at ten percent (10%) of the full merchandise subtotal of the delayed consignment. This 10% credit voucher is generated automatically by our billing workflow without requiring customer claim submissions, is transmitted directly to the primary account email within twenty-four (24) hours of breach identification, and remains valid for twelve (12) months across any catalog purchase.

3. SERVICE LEVEL THRESHOLDS & REMEDIATION MATRIX

Fulfillment Stage	Target SLA Window	Breach Trigger	Compensatory Action
Order Ingestion & Pick	0 to 24 Hours	> 24h without pick assignment	Internal operational priority escalation
Courier Dispatch Handover	24 to 48 Hours	> 48h without carrier departure scan	**Automatic 10% Store Credit Voucher**
Extended Logistics Delay	> 96 Hours	Prolonged transit halt	10% Voucher + Option for Full Order Refund

4. GOVERNANCE, EXCEPTIONS & AUTOMATION

Voucher disbursements are calculated exclusively on product subtotals (excluding third-party freight and taxes) and do not restrict eligibility for standard warranty claims or product return rights. Standard exemptions are strictly confined to documented natural disasters, state-mandated shutdowns, and unverified customer shipping addresses.
